Ms. Helen MacMinn
 QA Manager
 Analytical Laboratory Services, Inc.
 34 Dogwood Lane
 Middletown, PA 17057

Dear Ms. MacMinn:

In accordance with the authority as stated in 40 CFR 141 and 142, EPA Region VIII staff has reviewed your request for recertification for drinking water contaminants. In accordance with the recommendation of my staff, I hereby grant **reciprocal recertification** for the State of Wyoming and all tribal public water systems in EPA Region 8 to Analytical Laboratory Services, Inc. located in Middletown, Pennsylvania for the parameters listed below. This recertification is based on the NELAP accreditation of your laboratory by the State of Pennsylvania and on the performance of your laboratory in the analysis of Proficiency Testing Samples that were made available for years 2009 and 2010. For *Enterrococci* please provide the necessary documentation that will allow me to update the certification status to full in the given category.

The expiration dates for each parameter are listed in the table above, for the State of Wyoming and all tribal public water systems in EPA Region 8. Certification will remain in effect for that period specified under the conditions that the laboratory remains accredited by the State of Pennsylvania for all of the above parameters, that the laboratory follows the specified methods and that Water Supply Proficiency Testing samples are analyzed by the laboratory for each of the above listed parameters with acceptable results at a frequency of once per year.
